

PRESS RELEASE

IDS LAUNCHES FORTUNE iBOOKING Version 2.0 IN UAE

DUBAI JUNE 08, 2008: Intellect Data Systems FZ-LLC, global leader in providing integrated IT solutions for the hospitality industry, today launched a new product for the UAE and Middle Eastern Market. "Fortune iBooking version 2.0" the second version of the powerful booking engine for online and real-time reservations, was formally launched by Mr Suresh John, Managing Director, Intellect Data Systems FZ-LLC at the Hotel Show being held in the city currently.

Fortune iBooking version 2.0 will have additional features such as Corporate, Travel Agent & Sales Office Login, allocation check and day wise rates functionality.

"We are happy to announce the launch of the second version of Fortune iBooking. Dubai and the rest of the region have always been very appreciative of IDS products and we are confident that this new product will further boost the regional growth," said Suresh John. "While we have developed Fortune iBooking version 2.0 for smarter reservations, we are already working on upgrading our fairly new products like Fortune Care & Fortune Analytix. The version 2.0 of Fortune Analytix will be completely web based and will have multi-property consolidation, where as Fortune Care Version 2 will have self service option for departments with guest history database link and PDA version availability. Our existing and new clients both, will benefit immensely from all these three products" added John.

FORTUNE iBOOKING Version 2.0 HIGHLIGHTS

1. Based on latest Microsoft.Net v3.5 Framework
2. Includes Corporate Login, Travel Agent Login & Sales Office Login
3. Allocation Check
(including compatibility with Day wise allocation)
4. Day Wise Rates Functionality (based on tariff table).
